SWITZERLAND<sup>1</sup>Approved Exporters

The authorisation number of an approved exporter is composed of a one to five-digit number. Authorisation numbers with one or two digits are usually indicated on origin declarations preceded by zero(s), sometimes followed by the year of issuing (for instance: 11, 011, 0011, 00011 or 11/2018, 011/2018, 0011/2018 or 00011/2018).

Address of customs authority responsible for verifying proofs of origin

All requests for subsequent verification of proofs of origin under the FTA issued in Switzerland should be forwarded to the following address of the Federal Office for Customs and Border Security:

Federal Office for Customs and Border Security  
Origin Service  
Taubenstrasse 16  
3003 Berne  
SWITZERLAND

All requests for further information concerning a specific case of a subsequent verification should also be sent to the above-mentioned address or to the following email-address: [origin@bazg.admin.ch](mailto:origin@bazg.admin.ch).

Specimen impression of stamps used for the issue of movement certificates EUR.1 and EUR-MED

The following specimen impressions of stamps are used by the Federal Office for Customs and Border Security for the issuance of movement certificates EUR.1 and EUR-MED:

Concerning the name and code-number of the customs office and the number of the stamp the lay-out of the different stamps used may vary. Furthermore, the Swiss Cross is placed on the left-hand side of the word "ZOLLAMT" (German language, example 1) and "ZOLL" (German language, example 5) respectively on the right hand side of the word "DOUANE" (French language, example 2) and "DOGANA" (Italian language, example 3). The stamps of the two District Directorates of Basel and Geneva do not have a Swiss Cross (examples 4 and 6).

<sup>1</sup> As the Principality of Liechtenstein is bound to Switzerland by the Customs Treaty of 1923, the present notification is consequently valid also for Liechtenstein.

The different Swiss stamp numbers are listed hereafter:

Stamp number	Customs office	Stamp number	Customs office
100	ZOLLDIREKTION BASEL	327	RHEINTAL SÜD OBERRIET
114	BONCOURT-DELLE AUTOROUTE	328	RHEINTAL NORD ST. MARGRETHEN

**ICELAND**Approved Exporters

The Identification numbers for approved exporters authorised by Iceland are constructed as follows:

Four digits number, dash, IS, followed by the two last digits of the year of the authorisation:

*Example: 0023-IS 10*

A list of approved exporters in Iceland is available on the internet. The list is updated on a regular basis and can be found on the following web-address:

Above you find a specimen impression of stamps used by Icelandic customs authorities for the issue of movement certificate EUR.1 and EUR-MED. The layout displayed is used for stamps throughout the country, but the stamp numbers identify the various customs offices in different regions of the country. Thus, the number "1" appearing in the stamp is just an example. The 19 different Icelandic stamp numbers in use are listed below.

Stamp number	Number of stamps
Reykjavik	1, 2, 3, 4 and 34
Ísafjörður	11
Akureyri	17 and 18
Seyðisfjörður	21 and 22
Eskifjörður	23 and 24
Vestmannaeyjar	27
Selfoss	28 and 29
Keflavíkurlugvöllur	30, 31, 32 and 33

**NORWAY**Approved Exporters

The authorisation number of an approved exporter is composed by the following three elements: Country code (NO), the year of the authorisation given (two last digits of the year) followed by a registry number of nine digits. The last nine digits being the same as the company registry number used for value added tax purposes.

*Example: NO/21-123456789*

A list of approved exporters in Norway is available on the internet. The list is updated on a regular basis and can be found on the following web-address:

Specimen impression of stamps used for the issue of movement certificates EUR.1 and EUR-MED

Above you find a specimen impression of stamps used by Norwegian customs authorities when endorsing movement certificates EUR.1 and EUR-MED for Norwegian exporters. It should be added that all customs offices in Norway are authorised to stamp (endorse) movement certificates EUR.1 and EUR-MED upon exportation of originating products to a partner country. The customs stamp to be used has the same layout throughout the country; however, the code-number varies, identifying the different customs offices. Thus, the number "1601" appearing in the stamp is just an example.

*Electronic EUR.1*

Norwegian Customs introduced electronic EUR.1 on 2 April 2020. Below is a specimen impression of the red box located on the bottom left and upper right sides of the certificate with the unique reference number and the date and time of issuance.

Arkivert: 18-06-2019 14:17:56 AR5615551

Please see Annex IV for a specimen of the electronic EUR.1.

NOTES

1. Certificate must not contain erasures or words written over one another. Any alterations must be made by deleting the incorrect particulars and adding any necessary corrections. Any such alteration must be initialed by the person who completed the certificate and endorsed by the Customs authorities of the issuing country or territory.
2. No spaces must be left between the items entered on the certificate and each item must be preceded by an item number. A horizontal line must be drawn immediately below the last item. Any unused space must be struck in such a manner as to make any later additions impossible.
3. Goods must be described in accordance with commercial practice and with sufficient detail to enable them to be identified.

Annex IV: 18-11-2020, 16.09.13, AR/08/1226
